Version 3

LET'S BEGIN

PEUGEOT EXPERT

New PEUGEOT EXPERT features a renewed design, improved efficiency, the latest-generation connectivity and more sophisticated driving aids. It also retains the robustness, versatility and driving dynamics that have made it such a success with professionals.

Within the interior, the driving position has been extensively redesigned for greater comfort, ergonomics and practicality. The dashboard and steering wheel have also been redesigned, while the digital instrument cluster and the large central 10-inch touchscreen make the interface between driver and vehicle an enjoyable and efficient one.

PANEL VAN

New PEUGEOT EXPERT Panel Van is available in a number of versions:

Standard (4.98m) or Long (5.33m) panel van,

Please see our Prices and Specifications brochures or contact your local Peugeot Dealership for the most up-to-date prices and specification details for all models. CO₂ figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the

certified CO₂ emission output. WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other vans tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted pre and post registration; variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures.
